DETAILED ACTION

Specification

The specification is objected to as failing to provide proper antecedent basis for the subject matter of claims 10 and 38. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o).

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 10 and 38 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Applicant's specification, as originally filed, does not describe how the "third geometry is smaller than the first geometry."

Response to Arguments

Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

Claims 1-8, 11-16, 21-22, 24-30, 32-33, 35-37 and 39-40 are allowed.

It is noted that previously withdrawn claims 3-6, and 8 are being rejoined and allowed in accordance with MPEP 1302.04(h).
